

Nursery Newsletter

"luceat lux Vestra"

Welcome to our Nursery Newsletter!

Welcome back! It's lovely to see everyone back and the new children settled and enjoying Nursery life. This half term the children will be learning all about numbers, phonics, letter shapes and the sea through the topic of 'Pirates'. We have many exciting ideas planned over the coming weeks!

The children have already had fun drawing and creating pictures of Pirates and playing in our Pirate Role Play area, They have learnt new vocabulary and songs too!

During our Maths and Number time sessions the children have been taking part in a range of activities to develop their counting and number skills. The children have enjoyed creating marks to resemble numbers, completing puzzles and playing a range of counting games. They have also enjoyed sorting counters into different colours as well as counting them.

To develop physical skills this half term the children will be having music and movement lessons. The children will be learning different ways of moving and balancing. They will be practising these skills to gain confidence. Lots of play inside and outside at home will also help develop these physical skills.

The children have also really enjoyed our outdoor activities including riding bikes, balancing beams, stepping stones, role play and large scale mark making. It has been a very busy time!

Miss Grimshaw

Class Leader

Reminders & Upcoming events

Harvest Festival- 11th October

Autumn Art Competition- 18th October,
Draw, paint or create a scarecrow.

Be Healthy Day- 14th October, All lower school learn about exercise and healthy eating.

Please can you bring in a pair of wellies for your child to wear for outdoor play. These will be kept in school for playing outside in wet weather.
